ANSWERED	

Dear Doctor Flexner:

As you will see by the attached letter-head the National Research Council has approved a committee to make a survey of research on the gonococcus and gonococcal infections. This work is to be done as a cooperative project between the National Research Council and the American Social Hygiene Association. We are making Dr. Ruth B. Thomas available to assemble the material for consideration by the committee. We would be deeply indebted for any opportunities or privileges which your librarian can extend to Dr. Thomas in connection with this work. If you could refer this letter to the proper member of your staff to whom I might direct Doctor Thomas, I will be most appreciative.

Sincerely yours,

*W F Snow*  
William F. Snow  
General Director

*No answer required.*  
*Dr. Thomas made arrangements*  
*with Miss Frank for reference to several*  
*articles at Inst. In the main for*  
*use at the N.Y. Acad. of Medicine*

Permission is granted to the bearer

Dr. Ruth B. Thomas

to use the Library of the Rockefeller Institute  
for reference purposes during the summer of 1933.
