THE ROCKEFELLER INSTITUTE
FOR MEDICAL RESEARCH

66TH STREET AND YORK AVENUE
NEW YORK

June 5, 1939

Dear Dr. Michaelis:

Contrary to the custom which obtains in many institutions, the Institute does not at the present time have collections of reprints of the members of its staff. Collections of this sort have many uses, and it is proposed that one be started by the Library of the Institute.

The first step is to gather together as many reprints from former years as can be obtained, and it would be a great help to the Librarian if you would send to her copies of the reprints that you still have available. The Library will make these reprints the nucleus of its collection and will thereafter collect annually from each of the investigators in the Institute reprints of the articles which have been published during the year.

Yours sincerely,

HERBERT S. GASSER

Dr. Leonor Michaelis,
Rockefeller Institute.
