Cracking the Code of Life

Genes, DNA and You: The Impact of the Human Genome Project

Learn the latest on genetics in a unique series presented by the 92nd Street Y and The Rockefeller University, which is celebrating 100 years of science for the benefit of humankind. We'll explain the science behind the headlines and show how our genetic information will change the way diseases are diagnosed, treated and prevented.

After the Genome: Tailor-made Drugs

Tue, January 9, 7 pm

Stephen K. Burley, Richard M. and Isabel P. Furlaud Professor, Head of the Laboratory of Molecular Biophysics and Investigator for the Howard Hughes Medical Institute

Keeping Time with Biology

Tue, February 27, 7 pm

Michael Young, Professor and Head of the Laboratory of Genetics

Senses and Sensitivity

Tue, April 10, 7 pm

A. James Hudspeth, F.M. Kirby Professor, Head of the Laboratory of Sensory Neuroscience and Investigator for the Howard Hughes Medical Institute

Don't miss this informative series.

Call **212.415.5500** for tickets and information.
