Recommended Citation

The Rockefeller University, "1932-1933" (1933). *Semiannual List of the Publications of the Staff of the Rockefeller Institute*. 16.
<https://digitalcommons.rockefeller.edu/semiannual-publications-rockefeller-institute/16>

This Book is brought to you for free and open access by the Campus Publications at Digital Commons @ RU. It has been accepted for inclusion in Semiannual List of the Publications of the Staff of the Rockefeller Institute by an authorized administrator of Digital Commons @ RU. For more information, please contact mcsweej@mail.rockefeller.edu.

Results of the investigations conducted at The Rockefeller Institute for Medical Research, or elsewhere under its grants, are first reported in a variety of journals and publications. The Semiannual List, of which this is No. 34, gives the place of publication of the most recent reports of these investigations. It will be sent regularly upon request.

SEMIANNUAL LIST OF THE PUBLICATIONS OF
THE STAFF OF THE ROCKEFELLER
INSTITUTE FOR MEDICAL
RESEARCH

NOVEMBER 1, 1932, TO MAY 1, 1933

THE DEPARTMENT OF THE LABORATORIES

Pathology and Bacteriology

CASEY, ALBERT E. A species limitation of an enhancing material derived from a mammalian tumor. *Proc. Soc. Exp. Biol. and Med.*, February, 1933, **30**, pp. 674-677.

† — and ROSAHN, PAUL D. Studies on the blood cytology of the rabbit. IX. Blood platelet counts on healthy male rabbits. *Jour. Exp. Med.*, December 1, 1932, **56**, pp. 841-851.

‡ CLAUDE, ALBERT, and MURPHY, JAMES B. Transmissible tumors of the fowl. *Physiol. Rev.*, April, 1933, **13**, pp. 246-275.

† COX, HERALD R., and OLITSKY, PETER K. Neurotropism of vesicular stomatitis virus. *Proc. Soc. Exp. Biol. and Med.*, February, 1933, **30**, pp. 653-654.

† — and —. Further studies on neurotropism of vesicular stomatitis virus. *Proc. Soc. Exp. Biol. and Med.*, February, 1933, **30**, pp. 654-655.

—, SYVERTON, J. T., and OLITSKY, P. K. Cultivation of vesicular stomatitis virus. *Proc. Soc. Exp. Biol. and Med.*, April, 1933, **30**, pp. 896-898.

FLEXNER, SIMON. Prevention of poliomyelitis (abstract of James M. Anders Lecture). *Science*, January 6, 1933, **77**, pp. 7-11.

— . Prevention of poliomyelitis (abstract of James M. Anders Lecture). *Brit. Med. Jour.*, January 28, 1933, **1**, pp. 132-135.

— . Traitement préventif de la poliomyélite (abstract of James M. Anders Lecture). *Presse méd.*, February 15, 1933, **41**, pp. 249-251.

— . Accelerated, experimental poliomyelitis in nasally instilled monkeys. *Science*, April 28, 1933, **77**, pp. 413-414.

† To be published in *Studies* 85.

‡ To be published in *Studies* 86.

- GREENE, HARRY S. N. A pandemic of rabbit-pox. *Proc. Soc. Exp. Biol. and Med.*, April, 1933, **30**, pp. 892-894.
- and BROWN, WADE H. Hereditary variations in the skull of the rabbit. *Science*, November 4, 1932, **76**, pp. 421-422.
- IRWIN, M. R., and HUGHES, T. P. Inheritance as a factor in resistance to an infectious disease. VI. The correlation between resistance and the bactericidal power of the whole blood. *Jour. Immunol.*, April, 1933, **24**, pp. 343-348.
- † LANDSTEINER, K., and LEVINE, PHILIP. On individual differences in chicken blood. *Proc. Soc. Exp. Biol. and Med.*, November, 1932, **30**, pp. 209-212.
- † — and VAN DER SCHEER, J. Anaphylactic shock by azodyes. *Jour. Exp. Med.*, April 1, 1933, **57**, pp. 633-636.

- † —. Constitutional effects of the hairless gene in diploid and triploid *Drosophila*. *Am. Naturalist*, March-April, 1933, **67**, pp. 178-180.
- † —. Meiosis as a genetic character in *Drosophila melanogaster*. *Jour. Exp. Zool.*, April 5, 1933, **65**, pp. 83-106.
- † — and GAY, E. H. Gene number, kind, and size in *Drosophila*. *Genetics*, January, 1933, **18**, pp. 1-31.
- and —. Eversporting as a function of the Y-chromosome in *Drosophila melanogaster*. *Proc. Nat. Acad. Sc.*, January, 1933, **19**, pp. 122-126.
- and —. Effect of temperature on eversporting eye color in *Drosophila melanogaster*. *Science*, March 24, 1933, **77**, p. 312.
- † JONES, F. S., and LITTLE, RALPH B. Proteins of the whey fraction in milk from normal and abnormal udders. *Jour. Dairy Sc.*, March, 1933, **16**, pp. 101-109.
- † — and —. Acid milk in bovine mastitis. *Jour. Dairy Sc.*, March, 1933, **16**, pp. 111-119.
- , —, and ORCUTT, MARION. A continuation of the study of the etiology of infectious diarrhea (winter scours) in cattle. *Jour. Am. Vet. Med. Assn.*, November, 1932, **81**, n.s. **34**, pp. 610-619.
- † NELSON, JOHN B. The maternal transmission of vaccinal immunity in swine. *Jour. Exp. Med.*, December 1, 1932, **56**, pp. 835-840.

† To be published in *Studies 85*.

† To be published in *Studies 86*.

- NELSON, JOHN B. Etiology of uncomplicated coryza in the domestic fowl. *Proc. Soc. Exp. Biol. and Med.*, December, 1932, **30**, pp. 306-307.
- † SHOPE, RICHARD E. A transmissible tumor-like condition in rabbits. *Jour. Exp. Med.*, December 1, 1932, **56**, pp. 793-802.
- † —. A filtrable virus causing a tumor-like condition in rabbits and its relationship to *Virus myxomatosum*. *Jour. Exp. Med.*, December 1, 1932, **56**, pp. 803-822.
- . Identity of the viruses causing "mad itch" and pseudorabies. *Proc. Soc. Exp. Biol. and Med.*, December, 1932, **30**, pp. 308-309.
- SMITH, THEOBALD. Koch's views on the stability of species among bacteria. *Ann. Med. Hist.*, November, 1932, N.S. **4**, pp. 524-530.
- * STOLL, NORMAN R. Studies with the stronglyloid nematode, *Haemonchus contortus*. II. Potential infestation curves under conditions of natural reinfection. *Am. Jour. Hyg.*, November, 1932, **16**, pp. 783-797.

* Published in *Studies 84*.

† To be published in *Studies 85*.

The papers marked *, †, and ‡, and all similar reports from the Institute, are ultimately assembled in a series of volumes entitled **Studies from The Rockefeller Institute for Medical Research**. The price is \$2.00 per volume. A special rate of \$1.00 per volume is made to those who subscribe to *The Journal of Experimental Medicine*, or *The Journal of General Physiology*.

Other publications of The Rockefeller Institute are:

The Journal of Experimental Medicine, edited by **Simon Flexner, M.D.**, and **Peyton Rous, M.D.**

The Journal of General Physiology, edited by **W. J. Crozier**, **John H. Northrop**, and **W. J. V. Osterhout**.

Monographs of The Rockefeller Institute for Medical Research.
