Recommended Citation

The Rockefeller University, "1938-1939" (1939). Semiannual List of the Publications of the Staff of the Rockefeller Institute. 22.
https://digitalcommons.rockefeller.edu/semiannual-publications-rockefeller-institute/22

This Book is brought to you for free and open access by the Campus Publications at Digital Commons @ RU. It has been accepted for inclusion in Semiannual List of the Publications of the Staff of the Rockefeller Institute by an authorized administrator of Digital Commons @ RU. For more information, please contact mcsweej@mail.rockefeller.edu.
Results of the investigations conducted at The Rockefeller Institute for Medical Research, or elsewhere under its grants, are first reported in a variety of journals and publications. The Semiannual List, of which this is No. 47, gives the place of publication of the most recent reports of these investigations. It will be sent regularly upon request.

SEMIANNUAL LIST OF THE PUBLICATIONS OF THE STAFF OF THE ROCKEFELLER INSTITUTE FOR MEDICAL RESEARCH

MAY 1, 1939, TO NOVEMBER 1, 1939

THE DEPARTMENT OF THE LABORATORIES

Chemistry

†HOFMANN, KLAUS, and BERGMANN, MAX. The specificity of trypsin. II, Jour. Biol. Chem., September, 1939, 130, pp. 81-86.

* Published in Studies 113. † To be published in Studies 114.

Chemical Pharmacology

Physical Chemistry

* Published in Studies 113.
† To be published in Studies 114.

Experimental Surgery

Pathology and Bacteriology

* Published in *Studies 113.*

† To be published in *Studies 114.*

—and HODES, HORACE L. Role of inborn resistance factors in mouse populations infected with *Bacillus enteritis*, *Jour. Exp. Med.*, August 1, 1939, 70, pp. 193-208.

* Published in *Studies 113*.

† To be published in *Studies 114*. 

---

"Published in Studies 113."
Physiology

†Dow, ROBERT S. Cerebellar action potentials in response to stimulation of various afferent connections, Jour. Neurophysiol., November, 1939, 2, pp. 543-555.

†Toennies, JAN F. Conditioning of afferent impulses by reflex discharges over the dorsal roots, Jour. Neurophysiol., November, 1939, 2, pp. 515-525.

General Physiology

ANSON, M. L. The reducing groups of egg albumin, Science, August 11, 1939, 90, pp. 142-143.
—. The denaturation of proteins by detergents and bile salts, Science, September 15, 1939, 90, pp. 256-257.

*DAMON, E. B. Bioelectric potentials in Valonia. II. Effects of artificial sea waters containing LiCl, CsCl, RbCl, or NH₄Cl, Jour. Gen. Physiol., July 20, 1939, 22, pp. 819-833.

* Published in Studies 113. 
† To be published in Studies 114.  
5

KUNITZ, M. Isolation from beef pancreas of a crystalline protein possessing ribonuclease activity, Science, August 4, 1939, 90, pp. 112-113.

—. Kinetics of the formation of chymotrypsin from crystalline chymotrypsinogen and of trypsin from crystalline trypsinogen, Enzymologia, September 28, 1939, 7, pp. 1-20.

†NORTROP, JOHN H. Increase in bacteriophage and gelatinase concentration in cultures of Bacillus megatherium, Jour. Gen. Physiol., September 20, 1939, 23, pp. 59-79.

Biophysics

THE DEPARTMENT OF THE HOSPITAL

†BEESON, PAUL B., and GOEBEL, WALTHER F. The immunological relationship of the capsular polysaccharide of Type XIV pneumococcus to the blood group A specific substance, Jour. Exp. Med., September 1, 1939, 70, pp. 239-247.

* Published in Studies 113.
† To be published in Studies 114.

*Published in Studies 113. †To be published in Studies 114.

THE DEPARTMENT OF ANIMAL AND PLANT PATHOLOGY

Animal Pathology

†—. Studies on Strongyloides. V. Constitutional differences between a homogonic and a heterogonic line of S. ratti, Jour. Parasitol., August, 1939, 25, pp. 365-375.

*GREENE, HARRY S. N. Familial mammary tumors in the rabbit. I. Clinical history, Jour. Exp. Med., August 1, 1939, 70, pp. 147-158.

* Published in Studies 113.

† To be published in Studies 114.
*GREENE, HARRY S. N. Familial mammary tumors in the rabbit. II. Gross and microscopic pathology, Jour. Exp. Med., August 1, 1939, 70, pp. 159-166.

*—. Familial mammary tumors in the rabbit. III. Factors concerned in their genesis and development, Jour. Exp. Med., August 1, 1939, 70, pp. 167-184.

*—. Disseminated encephalomyelitis of the dog, Arch. Path., August, 1939, 28, pp. 151-162.

†—. Encephalopathy following injections of bone marrow extract, Jour. Exp. Med., September 1, 1939, 70, pp. 303-314.

†—. The effect of advanced lactation in the cow on the physical and chemical composition of the milk, Jour. Dairy Sc., September, 1939, 22, pp. 689-695.

* Published in Studies 113. † To be published in Studies 114.
SHOPE, RICHARD E. An intermediate host for the swine influenza virus, Science, May 12, 1939, 89, pp. 441-442.

*TRAGER, WILLIAM. Intracellular microorganism-like bodies in the tick, Dermacentor variabilis Say, Jour. Parasitol., June, 1939, 25, pp. 233-239.

*TRAUB, ERICH. Epidemiology of lymphocytic choriomeningitis in a mouse stock observed for four years, Jour. Exp. Med., June 1, 1939, 69, pp. 801-817.

Plant Pathology

HOLMES, FRANCIS O. Proposal for extension of the binomial system of nomenclature to include viruses, Phytopathology, May, 1939, 29, pp. 431-436.

†KUNKEL, L. O. Movement of tobacco-mosaic virus in tomato plants, Phytopathology, August, 1939, 29, pp. 684-700.

†LORING, HUBERT S. Properties and hydrolytic products of nucleic acid from tobacco mosaic virus, Jour. Biol. Chem., September, 1939, 130, pp. 251-258.

PRICE, W. C. Cross protection tests with two strains of cucumber-mosaic virus, Phytopathology, October, 1939, 29, pp. 903-905.

‡SPENCER, ERNEST L. The effect of host nutrition on concentration of tobacco-mosaic virus, Plant Physiol., October, 1939, 14, pp. 769-782.

*— and LAVIN, GEORGE I. Frenching of tobacco, Phytopathology, June, 1939, 29, pp. 502-503.

* Published in Studies 113. ‡ To be published in Studies 115.

† To be published in Studies 114.

—. Recent contributions from excised plant tissue and organ culture studies to the science of plant physiology, *Chronica Botanica*, Summer, 1939, 5, pp. 166–167.

† To be published in *Studies 114*.

The papers marked *, †, and ‡, and all similar reports from the Institute, are ultimately assembled in a series of volumes entitled *Studies from The Rockefeller Institute for Medical Research*. The price is $2.00 per volume. A special rate of $1.00 per volume is made to those who subscribe to *The Journal of Experimental Medicine*, or *The Journal of General Physiology*.

Other publications of The Rockefeller Institute are:

*The Journal of Experimental Medicine*, edited by SIMON FLEXNER, M.D., PEYTON ROUS, M.D., and HERBERT S. GASSER, M.D.

*The Journal of General Physiology*, edited by W. J. CROZIER, JOHN H. NORTHROP, and W. J. V. OSTERHOUT.

*Monographs of The Rockefeller Institute for Medical Research*.

All correspondence should be addressed to the
